

Twins of Aurora

Life seems relatively normal for eighteen-year-old Avalina, who spends most of her time hanging out with her outspoken best friend, Jess, her twin brother, Aiden, and his best friend, Nick. Avalina fights against the overwhelming crush she has on Nick, harassment from her cruel ex-boyfriend, and an over protective brother while trying to make it through her senior year of high school. Their lives are forever changed when the mysterious Arais, who looks remarkably like Nick, appears at a party in their sleepy little town in Northern Idaho. Arais holds secrets Avalina has long forgotten, secrets of a past based in a world of magic, mythical creatures and a royal lineage. Follow the group of friends as they travel through this thrilling new world while Avalina learns to control the magic she needs to save everyone from the darkness that threatens to destroy Aurora and all who live within it.
