The book is a step-by-step guide to hundreds of ways that the reader can clean out, refresh and revitalise the very corners of the mind so that it works as efficiently as possible. The book includes a self-assessment questionnaire, mind games and exercises, meditation, positive thinking, reflexology, cranial sacral therapy, aromatherapy and tai chi. There is also a section on techniques for stress management and advice on nutrition and foods that aim to keep the reader more mentally efficient.
