

AIRLINE TRANSPORT PILOT AND AIRCRAFT TYPE RATING Practical Test Standards for HELICOPTER ON KINDLE

AIRLINE TRANSPORT PILOT AND AIRCRAFT TYPE RATING Practical Test Standards for HELICOPTER ON KINDLE Take a look at the sample for this book for details about downloading 500 free US military manuals as a thank you for taking the time to look at our book. FOREWORD The Airline Transport Pilot and Aircraft Type Rating Helicopter Practical Test Standards (PTS) book has been published by the Federal Aviation Administration (FAA) to establish the standards for airline transport pilot and aircraft type rating practical tests for helicopters. FAA inspectors, designated pilot examiners, and check airmen (referred to as examiners throughout the remaining practical test standards) shall conduct practical tests in compliance with these standards. Flight instructors and applicants should find these standards helpful in practical test preparation. INTRODUCTION General Information The Flight Standards Service of the Federal Aviation Administration (FAA) has developed this practical test standard (PTS) book to be used by examiners when conducting airline transport pilot and aircraft type rating practical tests (knowledge of the equipment and flight tasks) in helicopters. Instructors are expected to use this book when preparing applicants for practical tests. Applicants should refer to these standards during their training. Information considered directive in nature is described in this practical test standard in terms such as shall and must indicating the actions are mandatory. Guidance information is described in terms such as should and may indicating the actions are desirable or permissive but not mandatory.
