

## The Successful Self

Is it possible to be truly successful as a person? Or must we, as most of us do, continue to live our lives feeling in some way trapped and oppressed, frustrated, irritable, haunted by worries and regrets, creating misery for ourselves and others? In *The Successful Self*, leading psychologist Dorothy Rowe shows us how to live more comfortably and creatively within ourselves by achieving a fuller understanding of how we experience our existence and how we perceive the threat of its annihilation. She demonstrates how to develop the social and personal skills we lack, retaining the uniqueness of our individuality while becoming an integral part of the life around us and learning how to value and accept ourselves. With the originality, clarity and unfailing wisdom she has become famous for, Dorothy Rowe enables us to revolutionise our own lives and the lives of others in the process of becoming a Successful Self.
