

Alpha Tales: Crescent Moon Series Box Set

Three hot tales of paranormal romance

Taming the Alpha After a year of lusting after his sexy employee, werewolf pack-leader Grant Kincaid broke his no-involvement-with-humans rule and made a move on Talia. A month later things between them are still red hot and everything is perfect. Or so he thought. When Talia announces she's tired of being his last priority, Grant realizes he might lose the only woman he's ever cared about. But if he admits that he's not human he risks not only his heart, but the safety of his pack.

Claiming His Mate When jaguar shifter Lauren Hayes breaks into an alpha's home to steal back what rightfully belongs to her pride, she doesn't expect to be tackled by Max McCray, second-in-command of the Kincaid wolf pack. As punishment for her crime the sexy wolf shifter demands that she stay with him for one week. Max has waited months to make a move on the sexy jaguar shifter and now that she's broken shifter rules, he's making his claim. Unfortunately, not everyone likes the idea of him being with a feline shifter and Max is forced to choose sides in order to protect the woman he knows is his destined mate.

Tempting His Mate Wild one night stands are not Ella Hayess style, but after her painful departure from her jaguar pride, who could blame her for falling into bed with a sexy wolf? She didn't think she'd see Asher again. And never in her craziest dreams did she expect to come face-to-face with him on her first day with the Kincaid wolf pack. When somebody targets Ella, Asher moves quickly to get her under his roof and under his protection. Because this time, he's not letting her go.
