

From Russian Freedom to American Slavery: Human Trafficking by the US Church of Scientology

This book includes extensive research from interviews with Russian and foreign diplomats in Russia relative to the plight of Russians trafficked unknowingly to foreign countries. Of special interest are the interviews of Russian Scientologists Araxia and Svetlana that traveled to the Flagship of the Church of Scientology who were invited to study in Clearwater, Florida only to find that they were brought there to serve as menial laborers with 20 hour work days. Where children are considered adults in little bodies, children were separated from their parents and forced to serve as laborers with the adults. The featured stories in this book are about Araxia and her two children and Svetlana from Saint Petersburg who was a former Soviet Olympian and serious Scientologist who traveled to Clearwater at her own expense. 11 weeks after her arrival she was able to leave on a trip back to Russia, emaciated and 25 pounds lighter. Of the many Russian Scientologists who went to Clearwater from her local Church, she was the only one that found a way to escape. All information written came from direct interviews by the author. This is not a research book. NON-FICTION
