

Lock On No. 28 - Messerschmitt Bf-109G-2

This special 28th edition of the popular LOCK ON series focuses on the lines, systems, and personnel of the ubiquitous German Messerschmitt Bf 109G-2 of WWII vintage. Beautiful full color photography not only captures the full view of this magnificent aircraft, but also provides valuable glimpses at such details as the fuselage, wings, landing gear, cowling, tail, pilots, mechanics, cockpit, engine, and much more. This is the most comprehensive photo-documentation of this fully restored aircraft, which unfortunately has since crashed and burned. To top off all of the excellent references, the book is wound-up with a kit review of a 1:48 Hasegawa kit detailed with the VP resin and photo-etched Super Update set, which was based on the comprehensive illustrations found in this book. This book belongs in the collection of every scale modeler, aviation enthusiast, historian, and WWII veteran.
