

My Wolf Protector (Wolf Town Guardians) (Volume 2)

Resigned to never knowing the truth about his mates disappearance, Marrok Walker is a guardian with nothing left to lose. Late one night his entire world is turned upside down when two battered werewolves stumble into Wolf Town. They have escaped from a hidden research facility in New Mexico, and they are only moments away from death. Before losing consciousness, one of them makes a shocking revelation. Marrok discovers his mate is still alive... and desperate to be rescued. Taylor Moore was just your average virginal accountant until a series of horrific events altered her life. Plus-sized and loaded with responsibilities, she lets her best friend talk her into trouble. At the very last moment, shes rescued by a tall, dangerous male riding a motorcycle. Hes a Native American from the Apache tribe and a bad boy biker at that. Its the start of something wonderful... until shes abducted from him and taken to Hells Pit. Now that he knows his mate is alive, Marrok wont let anything stand in the way of reclaiming her. Shes no longer the same woman he knew, but the mating heat doesnt care. It explodes, burning them both alive. Taylor is his. And by the time Marrok is done with her, shell know it.
