

## Alien, Mine

THE BLUTHEN HAVE ONE CONSUMING PASSION: THEMSELVES. IN THEIR EXPANSION ACROSS THE GALAXY, THEY WILL GO TO ANY LENGTHS TO DOMINATE SPECIES THEY ENCOUNTER. Torn from modern day Earth and stranded on the far side of the Galaxy, Sandra Fairbairn must use every particle of courage she possesses to adjust to her new life and live for tomorrow. Eugen Mhartak, a general in the Tri-Race Alliance Army, refuses to bow to the merciless Bluthen. Haunted by the loss of far too many innocent lives he has vowed to drive the ruthless invaders from Alliance space. The strength and valor of Eugen Mhartak attracts Sandra as no man ever has, but she struggles to read the enigmatic general's heart. Determined to help him triumph over the Bluthen she uncovers a diabolical plot against the Alliance. Drawn by the courage and exotic beauty of Sandra, Mhartak battles to overcome the barriers of cross-cultural differences that separate them and claim her ardent interest. He must conquer his deepest fears to be the man she needs. When his principles are betrayed by his own government and he is faced with the impossible prospect of taking Sandra's life in order to save his home planet, Mhartak desperately searches for a way to keep safe both his world and the magnificent woman who has stolen his heart.
