

American Made (Against the Tides Book 2)

Emerson Hollis doesn't do her job because she likes it; she does it to protect the people and the country she loves, something most grown men wouldn't do. When stray bullets threaten to take away the only way of life she knows, it might actually prove to be exactly what she needs. Gentry Rice lives and breathes his job as a rescue swimmer. That is, until the new man on his crew brings a friend along for a drink after their shift. She's everything he could ever want but never knew he needed. However, the one thing they have in common could be the one thing to pull them apart. Will Emerson be able to handle it when her new path forces her past into the present? Can Gentry get her to see that the things she thinks make her weak, are actually what force her to be strong? **Intended only for readers over 18**
