

Trillionaire Next Door: The Greedy Investors Guide to Day Trading

When Getting Rich Quick Just Isn't Fast Enough! Many day trading books on the market today contain dubious advice, but never before has there been a book guaranteed to contain 100 percent dubious advice--until now. The Trillionaire Next Door is that book. Inside you'll find: The rock-solid, scientific principles of day trading explained in language so clear and concise it's almost insulting. A glossary of key economic terms for the day trader, like mousepad and click. Advice for the long-term investor: which stocks to hold in your portfolio for five, ten, fifteen minutes or more. Confusing, meaningless graphs and charts. Bad math. And much, much more--but since day traders have short attention spans, not too much more. If The Trillionaire Next Door were a stock, I'd buy it, sell it, buy it, sell it, and buy it again--it's that good! --Stacy Gellman, day trader
