

Another Chance

Patrick OCallaghan is a vampire grappling with the fate that has been laid out for him. Turned into a vampire during World War II, he lived for many years as a crazed monster searching only for blood and dishing out death. That is until he is approached to join a unique unit of the United States military, a special operations division made up of vampires looking for a second chance, for a way to redeem the horrors they have caused by serving God and Country. The only catch? He had to give up human blood. Jennifer DeMarco is a hard-nosed reporter and the daughter of an Admiral in the United States Navy. When she goes missing, kidnapped by terrorists she hoped to interview, Patrick's unit is sent out to rescue her and then remove her memory of the events, making it like they never happened. Things go awry when Patrick responds sexually to Jennifer, something that hasn't happened since he was made a vampire. New truths are unveiled to Patrick—things he never thought he either could or should have as a creature of the undead, and Jennifer's life continues to be in danger. When disaster strikes, the two will discover that there are second chances if only you're willing to take them.
