

Bargain (Planet Berserker Book 2)

Originally published in installments, the complete collection is available as LOKI AND IRMA. Irma and Loki are fast establishing their reputation as the most argumentative, ill-matched mate partnership on all of Planet Berserker so Irma believes! And she wishes Loki would stop ending their arguments (temporarily, at least) by kissing her. That is taking unfair, delicious advantage of her weakness for bad-tempered Viking giants. Besides, they have important business to transact. To get off-planet, they need a spaceship. And to get that, they'll need to bargain hard with the salesperson, and with each other! Just how far will Loki go to get his own way, and can Irma resist his determination to seduce her into saying yes to a spaceship and an insane plan that just might get them banished from half the galaxy?
