

## WereBear Romance: Bear Near The Restaurant ( paranormal bear shapeshifter romance) (new adult paranormal bear shifter comedy short stories)

Escaping the pressures of a busy job and a relationship that seems to be going nowhere, executive chef Martina Rune often ventures to the forest clearing that forms the tropical southern border of her five-star restaurant. Here this spunky talented woman enjoys sketching the likeness of a mysterious bear creature that she sees there each night. Boasting the fangs and the body of a wild bear, the creature is nonetheless a gentle sort who provides her endless comfort and companionship. One day before work, a gorgeous young Frenchman approaches Martina in search of a job at the restaurant. After proving his worth in the kitchen, the stunning and mysterious Emmanuel immediately scores a position as a sous chef at La Fleur, her deluxe eatery. The two form a close, warm friendship based on common interests; one that provides an escape from her faltering and tempestuous romance with Norman, her co-owner and executive chef at the restaurant. Soon Martina is tempted by Emmanuel's charming and seductive ways and the two embark on a passionate affair that may fulfill her desires and brings all of her wildest dreams to life--one that just might bloom into true love. Yet the path to true passion never did run smooth; and while Martina worries about the exposure of her secret affair, her lover worries about the exposure of his secret identity--one that may truly expose his wild side. Warning! This ebook contains explicit scenes of passion and desire. For adult eyes only!!!
