

One Bite (The Blood Prince series) (Volume 2)

USA Today bestselling author Jennifer Blackstream continues her sensual Blood Prince series with book two, a Snow White tale like never before. A sizzling tale of a power-hungry vampire and a fierce rusalka maiden -- unlikely soul mates whose passionate tempers and fierce determination will put their tentative alliance to the test. A brilliant paranormal romance. It took the story of Snow White and make it delightfully dark and absolutely amazing. Kirill and Irina's story goes beyond the quiet kiss of death of a pale beauty and into what it really means to sacrifice yourself for the one you love. A power-hungry vampire in search of a fruitful alliance ... Kirill is a vampire prince plotting to be a vampire king. His immortal father has no intentions of vacating the throne anytime soon, but all good things come to those who wait...and plan. Bit by bit, Kirill is gathering political allies, forming alliances with goblins, trolls, and any other magical creatures who will speak with him. Unfortunately, his ruthless machinations can only get him so far. Some situations just require a woman's touch. If only the fiery maiden with the power to help him didn't strain his control over his lust for blood...and more. A rebellious siren with a song to soothe the savage heart ... Irina will not cower. Not from her evil sorceress stepmother, and not from the vampire prince whose fangs threaten her with death even as his lips raise the heated desire of her bloodline. With a dagger at the ready, she agrees to a bargain -- her aid in his pursuit of political alliances with creatures beyond the veil in return for a reduction in the royal tithe her people are forced to pay the crown. If only sharp fangs and a sharp tongue weren't such an incendiary combination... Will the vampire's love for the rusalka maiden win out over his all-consuming political ambition? Or will the glass coffin keep its treasure? Scroll up and click the buy button
