

Beyond Reason (Beyond Love Book 3)

Lilys off and running the moment she graduates. Shes working at one of the most prestigious PR firms in Portland where her ambition propels her ahead at the firm and she loves it. Between decorating her new apartment and focusing solely on work, she has no time for dating, which is ideal since thats never been her strong suit. At least not since she ran away from her high school sweetheart several years before. After more than a handful of somewhat sketchy relationships in college, shes come up with a few dating guidelines: >Dont date the boss. >Dont date his son. >Stay away from Professors, even if not in school. >Never fall in love. As long as she sticks to the rules everything should be fine, but thats always been her problem. She never sticks to the rules, and she has two best friends determined to find her perfect match, even if that means digging up her old high school boyfriend.
