

High Speed Trains 2015 - Europe and North America

Welcome to the world of true high speed train or Europe and North America! In this book you will find most important high speed train families, both newest and some classics. Of many subjects by this version the information available has become quite extensive. You will also get clear definition on high speed rail and super high speed rail, along with basic train formations and high speed line considerations. Always at the focus is service view, why the service is important to its customers, how did it evolve, and what the future might look like. For each train type chapter starts with overview accompanied with recognition guide. This is followed by detailed technical information, train background and what the near future will look like. Lots of quality pictures from many photographers are also provided of each train. Different paint schemes and variations are standard in pictures. Some of the trains described are running nearly 400 km/h / 250 mph while others top speed is 200 km/h / 125 mph. The over 600 unit TGV fleet and popular Railjet fleet are described in more detail, with pictures of various paint schemes and train subtypes. Velaro and ICE trains section has a recognition guide for these magnificent multiple units. About 30 other train types are covered too, including Maglev and Hyperloop. Next updates of Super High Speed Trains 2015 will again bring some more depth, stories and latest developments to the subject. So why not buy the book now and click update button occasionally at your Kindle Bookshelf!

Contents 0. Welcome 1. Definitions: Super High Speed, High Speed and Semi High Speed Trains, Electricity Rules the World...for Now, Basic high speed train formations including Maglev and Hyperloop, Line building styles 2. High Speed Train Families 2.1. Alstom Train a Grande Vitesse TGV 2.2. Siemens Mobility Velaro / ICE Family 2.2.a. Siemens

Velaro-RUS 2.3. Bombardier Transportation Zefiro EMUs 2.4. Alstom AGV 2.5. Trevi (Bombardier and AnsaldoBreda) ETR-500 2.6. Stadler Rail EC 250 2.7. Alstom Pendolinos 2.8. Siemens Mobility Railjets 2.9. Bombardier Regina X55 2.10. Hitachi HS EMUs 2.11. Amtrak ACELA 3. Train a Grande Vitesse (TGV) of Alstom 3.1. Latest TGV Trains 3.2. A Short History of TGV Train 3.3. TV-PSE (Paris Sud-Est) 3.4. TGV-Atlantique 3.5. TGV-La Poste 3.6. TGV-Reseau / Thalys-PBA 3.7. TGV-Duplex 3.8. Thalys-PBKA 3.9. TGV-ReseauDuplex / TGV-Hybrid 3.10. TGV-POS 3.11. TGV-Dasye 3.12. TGV-2N2 / RGV-2N2 4. Velaro and ICE Trains of Germany 4.0. Latest in Velaro Development 4.1. Velaro-D, DB class 407 4.2. ICE3, DB / NS class 406 4.3. ICE3, DB class 403 4.4. ICE2, DB class 402 4.5. ICE1, DB class 401 5. Railjet Service of OBB and CD 5.1. Railjet Operators 5.2. Beginnings with Courage and Some Ingenious Creativity 5.3. Recent Developments and Next Chapters in Railjet Story 6. Pendolino Story 7. What is Coming Next?
