

My Stepbrothers Promise

A stepbrother book unlike any other...Emotionally raw, blazingly hot, and--in the end--beautiful and sweet. When thirteen-year old best friends Aidan and Jenny find out that they are going to be step-siblings, it is the best news ever--suddenly they aren't just going to be friends, they're going to be family. Then puberty hits, they kiss, and everything becomes awkward and complicated. Desperate to save their friendship and avoid the anger of their parents, Jenny and Aidan make a promise: If they reach the age of 18 without having French-kissed a boy or girl, their first will be with each other. It works, and the promise serves as a convenient way of burying feelings that no one will understand. But then the two turn 18, and they kiss again, and things get even more complicated. Aidan makes a desperate new promise: If he and Jenny graduate from college and they are both virgins, they would lose their virginity to each other. It is a silly promise, one that may have worked for thirteen year olds but not young adults going to separate colleges. Yet as college arrives, the promise lives in the minds of both Jenny and Aidan. They live, love, and grow, assuming that the promise that meant so much to one didn't mean anything to the other. But then graduation arrives, and a promise made four years earlier is suddenly all too real. Jenny and Aidan both wonder if the promise still matters. A stepbrother romance unlike any other, *My Stepbrothers Promise* will take you on a rollercoaster ride as a young couple look for what was always right in front of them. This is a stand-alone novel with a HEA ending.
