

The Billionaire Affair: Book I of the Billionaire Affair Series

Samantha Walsh is a twenty-three year old college graduate excited to have landed her first real job as a marketing executive for an advertising technology company. She is immediately taken with the company's charismatic CEO, Simon Richardson, and he seems to like her too. There's just one problem; he's married. When he invites Samantha to accompany him on a business trip to Barcelona, she is overwhelmed with excitement. But the trip doesn't go as expected, as Simon does something so shocking, she's left wondering whether she'll even be able to continue working with him. Will the naive Samantha be convinced that he is sincere as he professes his love for her? Or is he just a womanizer and master manipulator, used to getting his way? The Billionaire Affair is a salacious treat, perfect for fans of Fifty Shades or Sylvia Day.
