

Obsessive Compulsion (The Stables) (Volume 2)

Ians OCD draws him to Charlie at the same time its pushing him away from her, but Charlie isnt about to let him control the way their relationship unfolds. Set in Dallas, Texas, this is a Contemporary Romance series with light BDSM elements and mature themes. Each book will be a complete story, no cliffhangers. Ian Im trying to stop my eyes from staring at her, but thats like trying to tell my brain to stop worrying about the fact that my apartment door might still be unlocked because I only checked it twelve times this morning instead of sixteen times like I do on Thursdays. Even after twenty-eight years of the same shit, my rituals still find ways to argue with one another. Well, I can only assume that I was checking the latch on my crib when I was a baby, but Im willing to bet money that I was. Ive never had my place broken into, but it doesnt matter. Ive never had a fire, either, but that doesnt stop me from making sure all my appliances are unplugged before I go to bed. And I mean all the damn appliances. You think its no big deal until youre trying to crawl behind a dryer at two in the morning while youre in someone elses apartment. Yeah. No second date from her. Girls dont seem to like a guy whos a little obsessive about some things. Okay, everything. A lot. A lot obsessive about everything. Might as well just let it all out, Rider, while youre staring like a shopping mall puppy, waiting for her to turn your way, see your sad little expression and wagging tail in the window, and then take the more sane puppy next to you home. The one whos been licking his butt for an hour like a normal dog should instead of obsessing about how unsanitary it is. Yes, my brain spends as much time obsessing about these clever little analogies as it does making sure I remember to brush my teeth. Four times. Twice on Tuesdays. Only once if its raining. I cant even have a moment alone to myself to admire Charlies fiery red hair from afar, because my own

mind wont leave me the hell alone. Her hair captivates me, though, especially on days like this when the sun is brightly filtering down into the factory through the skylights to reflect on her waves of copper as it falls down her back. To say that Im a little obsessive over Charlies hair is to belittle the fact that Im just obsessive about Charlie in general. Charlie My mom used to say I was just a mess waiting to happen. Disorder. Chaos. An Oklahoma tornado on two legs with fiery waves of hair trailing behind me. Nothing in my life has ever been cut and dry. From Emma to Italy, and all the crazy in between, I never have a lack of inspiration for the paint I slap against blank canvasses. Maybe thats what draws me to Ian. Hes too neat. Too tidy. Too reserved and way too damn uptight. He has a sense of humor, when I can drag it out of him, and hes one of the most kind men Ive ever met, but I wish hed just let lose a little. Get messy and dirty with me. The man counts light-switch flicks and organizes his desk like its a Sudoku puzzle where everything must be in its proper place. Hes also a better man than what Ive had in my life lately. Maybe a little order could do my chaos some good, and maybe a little tornado-Charlie could bring some much needed upheaval into Ians organized world.
