

California Wine

Single mother Elizabeth Ladina is done with men. From her father on down, all they want to do is control her life. Deciding to take her life into her own hands, she ends her five-year relationship and goes to Italy to visit Liguria, her family's original home and rediscover the thrill of being on her own. A visit to an upscale skin care boutique in Italy inspires her. Dreaming she could create an upscale lotion line that is splashed across the pages of the best glossy fashion magazines, she's eager to get home to California and make her vision into reality. Italian Marcos Gamari has one goal in life - to create the world's finest wine from the best vineyards in the world. His vineyards in Italy and France are producing prime wines that are already garnering awards and he has no time or desire for romance in his life. Emotional entanglements only lead to pain. His ex-wife had proved that. Still, when he sees the pretty American eating alone in a hotel dining room in Liguria, he's compelled to strike up a conversation, which leads to dinner and Elizabeth's invitation to see the vineyards of the Santa Cruz Mountains near her home in California. She claims they are equal, and cheaper, than anything he'll find in Napa, his original destination. Sparks fly when they meet again in Costanoa. Elizabeth and Marcos are determined to maintain their single-track focus on their businesses. But can they keep romance out of their lives forever?
