

Chastushki. Russian folk rhymes about love and sex. (From Russia with books)

Chastushka, which is an inaccurate but closest translation is limerick, is a Russian folk rhyme which is usually sung in accompaniment of traditional harmonica. It is a very popular genre that is still alive in the country. Chastushka is characterized by very open, if not cynical or ironic description of love, relationship and sexual life. It is the only genre where rude, filthy language had been generally allowed and accepted for centuries. The set below was created on the motives of chastushki, which is the plural for chastushka, of different ages to give to our readers another, maybe unusual example of Russian folk culture. The book is illustrated by several caricatures by eminent Russian primitive school artists. By the way, chastushki usually perfectly fit to the classic blues rhythm. Funny reading!
