

The Choice for Consciousness: Tools for Conscious Living, Vol. 2

Through the act of loving yourself, you give the gift of the truth of you to this world. The most powerful way you can be in the world is by loving yourself well and then living your life from that place. The question is: how do you do that? How do you love yourself when faced with overwhelming responsibilities, guilt, and feeling like the world is stacked against you? You love yourself well when you make the choice for consciousness. Consciousness changes the way you view yourself and the way you view your life. Change is rarely easy; yet staying the same offers no relief from suffering. The choice for consciousness is challenging, but familiar suffering is painful--and its a pain with no end in sight! This book provides step-by-step support to help you release victim mentality; drop baggage and unhealthy habits; and discard fear-based living. It will show you how to live as the creator of your life. This volume contains 16 tools and 137 definitions of terms and concepts to support your journey. The tools can be used in any order and are very powerful when combined with each other. The fear of change and the habit of staying small collaborate to say, No, no, no, dont you dare change because that could be dangerous. Who knows what will happen if you change? Thats the moment when you have to take the risk of allowing yourself to walk the truth of you in the world. When you hear the voice that says, No, no, no, I cant be that big. I cant shine my light that much. I cant emanate the truth of me to these people, thats the point when you need to say instead, I want healing above all else. I want healing above all else. My desire for healing is stronger than my fear of what will happen if I shine my light, than my fear of how my truth will be received. My desire for healing is stronger than that. Emanation of the truth of me comes first. The Choice for Consciousness, Tools for Conscious Living
