

Colorstrology: What Your Birthday Color Says About You

Colorstrology is a fascinating blend of astrology, numerology, and color theory that offers exciting new insights about our lives and relationships. Written by renowned astrologer Michele Bernhardt with the artists at Pantone, Inc., the global authority on color, the system features 366 birthday colors that illustrate who we are and how we behave. For example, people born on January 29 (like Oprah Winfrey) share the color Keepsake Lilac; they are ambitious and tender and born to make a difference ... it is not uncommon to find [them] in front of an audience. People born on May 11 (like Salvador Dal) share the color Green Tea. They have a vivid imagination and can see new ideas and concepts more readily than others. Using Colorstrology, youll quickly understand how to enhance your best personality traits with your birthday color. This full-color book features detailed profiles of everyone you know plus 366 perforated swatches so you can take your birthday color wherever you go. PANTONE , COLORSTROLOGY , and other Pantone, Inc. trademarks are the property of Pantone, Inc.
