

Compulsion (A Moon Coven Series Book 1)

A family secret kept hidden has been exposed, and the consequences could be deadly. After Lilyann Moons beloved grandmother dies shrouded by a veil of mystery, she and her young family members are yanked from their completely normal lives and catapulted directly into the supernatural world of witchcraft. A world they know absolutely nothing about.

The town of Hampstead, Maryland has no idea of the monsters that lurk in their midst. Or, of the dangers they will face if the Moon Coven doesnt figure out how to embrace the magick within each of them, especially Lily. Shes suddenly up to her pointy little black hat in magickal problems. Destiny presented her with a few more, and theyre pretty major - vampires, ghosts, and brogadh. The only bright spot in this nightmare was meeting Mason. But, is she in love with the enemy? Lilyann is in a race against time to save her town and coven. Will she survive the coming dangers, with her heart and neck intact? It all comes down to this one night... All Hallows Eve.
