

Furyous Ink (After Dark Book 1)

Marcus Kage has four dead women on his hands. As a detective, he knows that's more trouble than his city needs. As a Lycanos, he knows that's more trouble than his city can handle. A tattoo found on each victim identifies them as Amazons, and Athena's tribe of warrior women need half an excuse to start a war on a good day. A clue leads him to the artist who tattooed the victims and suddenly Marcus can barely keep his horny beast at bay. As a Fury, Megaera Eumenides can see straight to the soul of a man, and she likes what she finds in the strong, honorable Alpha. They claim each other, mark each other, and with every heated mating their bond grows stronger. Life would be just about perfect if they didn't have a supernatural assassin to avoid and Marcus' past haunting him and Meg's secrets to overcome and a murderer on the loose.
