

## A Healing Caress (Tales of the Citadel Book 3)

Brenawyn has lived life with one goal, survival. When Tracker of the Sector Guard lands on her planet she tries to buy herself some time at his expense and ends up with him and travelling to the Citadel. Training and teaching for four years, no one is more surprised than Bren when Tracker comes in, his body desperately needing her attention. After the healing he gives her another option, instead of languishing at the Citadel she can join him at Teklan base. She keeps him in suspense for the entire nine seconds that it takes her to make up her mind, and then they simply have to negotiate for her freedom. Easy.
