

## Creator of Shadows (Scarlet Rain Series, Book 3)

When Loreнна is kidnapped by Feoran, the head of the vampyric Clan, its a dent in the Resistance. While she was expecting his twisted advances to her, she didnt expect to feel something for him in return. But thats the least of her problems. The city is more in ruins than ever, the Cuans being cut off one by one to prevent the rebellious humans taking over any part of New London. And after the discovery made at the Factory, armies of clones now walk the streets, ready to kill and trained viciously by their vampire masters. The rebels must band together in full force, both to rescue their beloved witch from Feorans clutches, and to give the final push against the Clan. But a traitor in the heart of their inner circle is plotting with a vampire who wants more than they have, threatening to bring everything they have worked for tumbling down around them. Can Loreнна gain her freedom to help her friends, and can they finally cut the head off the serpent that is the Clan? Or will humanity forever remain in its iron grip?
