

Circles (Classic Doris Mortman)

A Classic Doris Mortman released for the first time on Kindle... New York Times bestselling author Doris Mortman stays true to form, delivering yet another thrilling and romantic classic guaranteed to be a page-turner. Jennifer Cranshaw had it all: beauty, brains, a handsome, powerful husband, as well as a close circle of family and friends. All her childhood ambitions are about to be realized: The glitter. The glamour. The prestige. But having it all means that you also have everything to lose. Jennifer discovers that her childhood dreams of a high profile life in a big city come with a cost she might not be able to afford. Her private world is rocked by a stunning betrayal she never saw coming. Now, Jennifer has a choice to make between fantasy or reality, loneliness or love, loyalty or self-preservation. Reminiscent of Danielle Steele and Nora Roberts, *Circles* is a captivating page-turner about love, loss and betrayal and just how far one woman will go to hold on to everything she's gained.
