

The Gem (Darth Series Book 4)

Peter Dunham is an unrepentant bastard, and he likes his life just the way it is. At the top of his profession, he knows his position is secure, having worked hard to get where he is. But a car crash turns his life upside down and for the first time, he is forced to depend on someone. Interestingly, the girl brought in to help him doesn't bend to his commands as easily as he expected. Shay McPherson, newly arrived in London, is ecstatic getting her first nursing job, but it turned out more complicated than anything she'd trained for. The client was willful, not to mention unreasonable, and it didn't help that he seemed to enjoy making her blush and she wasn't a prude, for the record.
