

Safe In Your Arms: A Dangerous Romance

Im alive in his arms, after three dead years. Too bad hes on every Most Wanted List in the world. Three years after her fiancé was killed in Afghanistan, Samantha lives heartbroken and alone on her Virginia farm until she meets Anton, a tall broad-shouldered stranger with a wild river of black hair, a mile-wide smile, an adorable accent she cant quite place, and a vague story about being a private security consultant. I came to this country to kill, not fall in love. But in her arms I am home, and now I will die to protect her. Anton doesnt do romance he cant afford it, not in his lethal line of work. Hes tempted by Sams generous curves and independent spirit but what makes him cross the line into love is how much she feels like home. When Antons dangerous way of life catches up to him and his enemies target Sam, can they find a way to be together? Or will Anton die in the arms of the only woman hes ever loved?
