

## Darkness Descends: A Skye Faden Novel

Skye Faden has had a crappy decade. Seriously. She survived nearly ten years of torture, then escaped and killed the vampires responsible for the deaths of her entire family. She should - by all rights - be free to spend the rest of her days on a warm, sandy beach somewhere. Unfortunately, those plans are quickly derailed by a bite-happy werewolf. With just a few days until the full moon and her first transformation, Skye has no choice but to accompany her ADHD-prone handler, Miko, to Scotland in search of answers. Faced with a supremely sexy ancient werewolf (woof!), a hushed prophecy about how her arrival will trigger a war, and a handful of unexpected new supernatural abilities, Skye is in for one hell of a ride. As the shaky truce between the breeds races toward its abrupt and violent end, she must unlock the mystery surrounding her identity and uncover a secret of betrayal that has been kept for over 4,000 years. Piece of cake, right?
