

## Moonbeams: A Christian Romance Novel (The Lewis Legacy Series Book 5)

He represents nothing she ever wanted. And offers everything she needs. She's everything he needs. And wants nothing from him. When their paths collide, can two people from different worlds dream of a future together? Expect the unexpected. Mitch Jacobsen's younger sister, Amy Warnick, has tried to pair him off with her fellow TeamWork Missions volunteer, Cassie, for over a year. Why can't Amy understand that the harder she pushes, the faster he'll run? Dating a woman who lives 1,600 miles away no matter how gorgeous and compassionate isn't on his radar. Cassie Thorenson wants nothing to do with a man who works with money and contributes to corporate greed. Dating a Wall Street broker no matter how handsome and funny is the last thing she needs. Surely, the Almighty must have a better plan. When these two meet during a TeamWork mini-reunion in Houston over Valentine's Day weekend, Mitch and Cassie discover they have a lot more in common than they ever imagined. Their plan to resist one another quickly derails and then an unexpected event sends them all reeling. Let the sparks and the tempers fly! The highly anticipated new contemporary Christian romantic adventure in the popular Lewis Legacy Series, Moonbeams is the story of discovering God's perfect will amidst the most unexpected circumstances.
