

Devour

Devour is the first book in Lucia Jordans Devour series, a seriously hot and provocative thriller by Lucia Jordan, written in her signature style of high passion, searing depictions and emotion. Maggie Culver doesnt trust anyone. This pediatric nurse floats from man to man taking no more than the physical release she needs. Finding out who killed her parents when she was an infant is her obsession. No one will stand in her way to find the truth. An anonymous letter sends her flying back to her hometown with a new lead. Enter Thomas Ramsey, the small town criminal defense attorney who is haunted by his own ghosts. His own love life has been limited to a handful of women who couldnt seem to cope with his dangerous clients. Maggie finds herself irresistibly drawn to the man who is supposed to be helping her. Can she manage to keep business and pleasure separated when her body aches each time shes near him? She knows Thomas is hiding something about her parents murder but what happens when her heart gets in the way? This ebook contains very hot and explicit descriptions of romantic activity and submissive training. Only mature readers should download this book.
