

Outlaw Choppers (Enthusiast Color)

Choppers, originally the favored rides of outlaw bikers, represent the pinnacle of today's motorcycling chic. Choppers designed by top builders routinely command six-figure prices. Once relegated to the scrap heap of pop-culture history along with wide lapels, mutton-chop sideburns, and macramé/233 vests, the chopper has returned to the cultural forefront. Today's choppers, rigid-framed, 125-horsepower steeds thrusting their extended forks down America's public highways, violate our sensibilities with their sheer outrageousness. *Outlaw Choppers* tells the story of these wild machines, where they came from, what's going on today, and where they're going in the future.
