

Beowulf and Roxie: Wulfs Den

When Roxie and her friend, Candice, decided on a girls night out she didnt realize the Wulfs Den would be more than she had anticipated. But Roxie soon learned to expect anything. The presence of a super-abundance of super good looking men surprised her and when the best of the bunch stared at her as if he wanted to devour her, surprise turned to amazement. Beowulf recognized her as his mate the instant she crossed his path and her scent filled his lungs. But he had to overcome one hurdle. She was not one of his kind--a werewolf. He had waited for years to find his mate and he would claim her even if she was a mortal. He would soon teach her all about werewolves. Roxie is caught up in strange events. Archaic markings appear on her wrist, and strong forces threaten to tear her away from her love as two other male werewolves try to claim her as their own. Would Roxie and Beowulf be able to keep the bond love had forged or would they lose each other forever?

Beowulf and Roxie (Wulfs Den, #1) by Marisa Chenery Reviews Eli vowed he would never tie himself to one woman. But when he sees a lone werewolf female at Wulfs Den with six large male werewolves at her back, he finds
