

## Maiden (Sarahs Story Book 1)

Read the new author everyone's talking about ...I'm in major love with these characters and find myself giggling because at 40 years old, I am obsessed with these books. Oh how I loved this series of books!!! I loved the characters, I loved the story and I loved how it flowed over a 30-year span within the three books.... I read Maiden in 8 hours, I simply could not force myself to put it down. This story made me cry and laugh, which only a couple of books have been able to do to me. I would love to see this series come alive on the big screen, a Twilight for Grownups. Borrowed this book through my Kindle Fire and was EXTREMELY blown-away! What an awesome book! Strongly recommend these books to anyone who is looking for a series to get lost in. This is one of the best books that I have read in a long time! The depth of the personalities of each character was very well done, original plot, very vivid and I disappeared from my family obligations for 2 days to finish it. Well done! When I really enjoy a book, I become part of the story, there was no doubt that I felt part of this one. I loved this whole series so very much!!! Riveting and mesmerizing. Such a beautiful story. I literally couldn't put this down at night. The author does such a great job building up the characters that you feel like you are right there along with them. I was hooked right away and found myself not wanting to stop reading. Love it.....one of those books that you just can't put it down. I finished reading this in a day. Was hooked by the characters---The main character is a very interesting woman and though you think you know her, you keep getting surprised. The story flows smoothly and in my case - I never wanted it to end. There is a wonderful blend of the natural and the super-natural worlds and along the way we learn some Roman history. This is not the type of book I would normally choose to read. Vampires are not my cup of tea and I usually prefer realistic

subjects. I cant tell you how glad I am that I did read it, though! Silvanus is certainly NOT your typical vampire!At the end, I couldnt wait to move on to the second book and the same with the third.These books are beautifully written.I am truly captivated with this story. I just finished book one and frantically searched Amazon for book two praying that it was ready to load to my Kindle and thankfully it was along with book three! Cant type anymore... must start book two now. Buy book, read it, move on to books two and three you will NOT be disappointed :)This book is amazing. First of all, not my type of book at all... I do not read books involving vampires, not me at all. Except now, I am saying bring on the other two books of this series.This book held my attention, I was taking it everywhere with me so I could keep on reading.Maiden was a lovely stand alone read, but as part of a trilogy it becomes stronger.I loved this book! Quite different from what I usually read but it was excellent. The bond between Sarah and Silvanus is something that you wish for yourself. Once I started reading I couldnt put it down, had to see what happens.
