

Elemental Man (The Adapters Book 1)

A novella about a superhero. Caleb is an ordinary guy...except for his bizarre ability to adapt to any situation. Really. Anything goes. Fire and water are no problem for him. Someone is shoving innocents into dangerous situations and Caleb is forced to act again and again. Its up to him to stop the person whos trying to draw him out. He already suspected his attractive neighbor is his stalker and then she demonstrates the rare ability of seeing him as he adapts. After Caleb confronts her, he has another problem on his hands. Hes told the innocent civilian Melinda far too much about himself and she apparently has some extraordinary skills herself. Her rare skills might make Melinda a target of the stalker whos after Caleb. And, thanks to his mistake about her identity, the nuisance of an agency that controls his life knows she exists. Caleb decides he has to protect and hide her from his friends and foes. Maybe she wont notice hes pretending theyve got a future together.
