

Email Megastar Field Training (Self Study Course Lesson 6)

Discover How To Make Money EVERYTIME You Send An Email If you want to make money from EVERY single email you send, build up a passionate following of readers who love to receive your emails and position yourself as someone trusted within your niche industry then this letter will show you how.

Even if youve already had a go at email marketing before but never enjoyed any great success, or you have a small list (100 named email list and you are good to go) I can transform your business literally overnight. Robert Evans Heres the story:

My name is Robert Evans, and over the years Ive personally sent more than 1,000 email marketing messages and generated over 10,000 orders. I email my list every (week) day and receive 20 40 orders per day (depending on the offer) and it takes less than an hour (usually 25 minutes) to write each message. This all means that I make around ?1,000 on a good day and ?400 on a bad day (just last week I made ?5,645) from EVERY email I send out multiply that by 5 and you have an idea of the income this form of marketing can bring your every week.

I have subscribers contacting me everyday thanking me (totally unheard of in Guru land) for my email messages, and telling me how much they look forward to receiving them.

My unsubscribe rate is VERY low (especially for the IM niche) and I very rarely get any spam complaints.

Further more, Ive build up such a loyal following that I can generate orders VERY easily in fact many of my subscribers buy just on my recommendation without needing to be persuaded. Now that is powerful stuff dont you agree?

And the good news is I can teach you my foolproof e-marketing formula, so that you can apply what I do and make ?1,000s per week ... EVEN without a huge list.

Ive created an advanced email marketing

training program featuring a mixture of hard core email marketing teaching and instruction, plus I'll psychoanalyse emails (mine, subscribers, other emails I see, etc). So you'll see what's worked and what didn't work. You can then apply what I'm doing to your email marketing. And more importantly I'll put money in your bank account. And if you follow my instructions, then you should be putting money into your bank account every time you send out an email even if you have a small list. The training program is an (advanced) email marketing course that teaches you my VERY successful strategy - step-by-step, and is split into 10 info-busting lessons (No padding or B.S.) so that you are not over-loaded with everything at once. It's all delivered via email (one email lesson at a time, twice weekly) for 5 or so weeks in PDF format ... and once you've received all 10 lessons, I'll print the whole training program, bind into a book and post it to you so that you can keep it by your side for constant reference. Some of what you'll learn includes: The first thing you must tell your subscribers after they opt into your list. (If you DONT do this then your subscribers will start to complain straight away and unsubscribe. If you do it right then your subscribers will trust you and order your products) The MEGASTAR email marketing method of writing emails that read like a story but are in fact pure selling. (This is one of the MOST potent emails to write, and it's eagerly read by your subscribers whenever you send them out.) How to promote your products in every email you send without coming across like some desperate Guru. (In fact doing it my way and your readers will actually enjoy clicking on your product links.) 8 different subject lines that are almost impossible for the recipient to ignore. (Considered as the most important part of an email, you'll learn how to write email subject lines that'll make you stand out in the inbox, never get considered as spam, and ensure you
