

## Christ our Refuge: The Safest Spot in the Universe

The safest spot in the universe, that is even safer than Cheyenne Mountain, is also the closest. Closer than that military center 700 miles from here, closer than your safe room, closer than a shelter, closer than anything else--is the refuge God has designed. Jesus Christ our hope, our refuge, and our salvation--is one thought away, one prayer away. He is as close as a cry, as close as an out-stretched hand, or an upturned heart. Anyone, anywhere can instantly arrive in that safest of all places--from any location.
