

## Fall for Anything

From the author of *Cracked Up to Be* and *Some Girls Are* comes a gripping story about one girl's search for clues into the mysterious death of her father. When Eddie Reeves' father commits suicide, her life is consumed by the nagging question of why? Why when he was a legendary photographer and a brilliant teacher? Why when he seemed to find inspiration in everything he saw? And, most important, why when he had a daughter who loved him more than anyone else in the world? When she meets Culler Evans, a former student of her father's and a photographer himself, an instant and dangerous attraction begins. Culler seems to know more about her father than she does and could possibly hold the key to the mystery surrounding his death. But Eddie's vulnerability has weakened her and Culler Evans is getting too close. Her need for the truth keeps her hanging on...but are some questions better left unanswered?
