

## Falling Rain: The Southwest Illinois Pack

Laurel is sad and lonely since she met Rain and had to leave him behind. She thought it was something special but she'll admit she doesn't understand males especially wolves. Rain has been trying to reach Laurel but it seems she has frozen him out. His calls aren't answered and the emails that come back to him are cold and business like. Is it a case of out of sight out of mind? It seems there are forces at work that don't want them together and danger lurks around every corner. Can they fight through all the trouble that heads their way and defeat it? Can they overcome the others that would change them and claim them? Are they really true mates or just infatuated? Come along for the ride as their story takes twists and turns that surprise even Rain and Laurel. Graphic sex for mature readers only. M/M M/F M/F/M
