

Finding Judgement (Centre Games Series Book 2)

Rory Southalls dreams have been haunted by the beautiful blonde pixie hed helped three months ago. Imagine his surprise when his next assignment is to investigate none other than the very same woman. TJ Walsh is holding on to her families trucking company by a thread. For the last two and a half years shes been trying to keep the debt ridden business afloat and her family fed. Shes driven and desperate to make ends meet. But she remembers every detail of a chance meeting three months ago with a handsome stranger. What happens when a simple supply chain investigation morphs into a deadly web of lies and deceit and TJ finds herself squarely in the middle of it? It seems that very same handsome stranger has rescued her again, how could that be? And how exactly does the illegal genetically modified products hes investigating have anything to do with her? How will she cope knowing the danger is much closer to home than she thought? When everyone seems to be gunning for them can she find love and salvation with Rory before its too late? Ask the Author Q: So what makes the Centre Games Series special? A: Its a mix of things, really. When I set out to write these books, I wanted to create something that mirrored exactly the kind of books I like to read. My favourite reads all have a little of everything romance, suspense, action, adventure. I dont even mind a little paranormal fantasy or sci-fi done right! I love a strong storyline and Ill admit to liking some steamy sex! Basically, anything with a kick-butt attitude and fast-paced style gets my vote, but the romance must be good, oh and did I mention a happy ever after? The Centre Games Series is a great mix of these genres. Youll find the series focuses on a romantic suspense mystery and thriller theme with a little but very believable paranormal or sci-fi twist. But unlike most romantic suspense, Ive added full character

development for our hero and heroine, and some very HOT sexy scenes. I like to take unusual themes, incidents or threats and use them as the thriller plot line, then I weave a romance story around it. Overall, the Centre Games series is designed to keep you turning the pages - and I've made sure there's never a dull moment. Q: Where are the books set? A: The books are set on the Gold Coast (Queensland) Australia and are based around a covert quasi-government agency that is not government, nor military but rather designed to eradicate biological, agricultural and environmental threats. Q: What are the characters like? A: My heroes are very alpha (you'll understand why when you read the books) and are all very unique. My ladies are also strong, smart and take-charge. I often have readers say how they love that all my characters are different and they want them as friends! Q: I'm a guy, will I like your books? A: Probably, I have a lot of male readers who love the strong storylines. (as long as you're okay with some red hot romance and sex all will be good!) Q: What order should I read the books in? A: I've written the series so you can read the books as standalone, or as a connected series. If you do want to read them in order to get the most out of the series, I'd suggest the following sequence. Finding Trust Finding Judgement Finding Freedom Finding Resolution Centre Games Series e-book Categories: love inspired romance romance thrillers steamy romantic suspense hot romantic suspense action adventurer romantic suspense military romantic suspense series romantic thrillers and mysteries
