

To Catch A Cheetah

A dangerous man. An assassin. A loner, who refuses to be loved. All of these things could be said about the irresistible heartthrob Chase Alexander, the Paranormal Guilds most valuable killer-for-hire. He also happens to be a shifter. A cheetah shifter, to be exact. What begins as an unforgettable one-night-stand at a dark night club, with a fiery redhead, turns into something far more dangerous when Chase is contracted to take out not one, but two marks. A vampire, and his daughter. Except the daughter isn't a stranger at all. It's the woman he had the most incredible night of his life with. The woman he was supposed to forget. The woman that made him feel way too much. Once a cheetah, always a cheetah... Maybe he's better off taking her out, forgetting she ever existed, and going on with his life. Or perhaps, she's worth the risk. The question is, can a cheetah truly ever be satisfied by just one woman? And if he puts it all on the line, will the curvy beauty ever trust him again? After all, he just murdered her father.
