ALIEN ROMANCE Space sex: the final frontier... My life was in shambles. It had been, for as long as I could remember, in fact. Id never known what I was doing in life, or how I should be spending my time. Over the years, Id developed quite the sex drive in order to cope with my lostness in life, sleeping with just about anyone who came along and happened to look halfway decent. At one point, Id gotten particularly restless, and took to traveling the world in hopes that it would solve from my problems. But, aside from quite a few more notches in my bedpost and the draining away of my savings account, very little changed as a result. Im back home now, feeling more lost than ever after a lousy evening of being wined and dined and screwed, wondering what in the universe there is for a person like me. And thats when the tractor beam comes down from out of the sky... Im pulled, still in my bed, up into the air, onto an alien spacecraft, where I encounter two absolutely gorgeous extraterrestrial lifeforms. As it turns out, theyre on a mission to study the ins and outs of human sexuality, and they might just want to use me as a test subject...

*Warning: This book contains lots of HOT sex, drama and submission. If this is not the kind of stuff you like to read, then start now and see what you have been missing ;-)
