

Gatekeeper (The Hayle Coven Novels Book 6)

The Call of the Sidhe The Gate awaits me, shining splendor glowing in the pale light. I look up, see the moon hanging over me, full and bloated, speaking a promise of freedom. The otherworld portal begins to hum a welcome as I move closer, calling me. But as I draw near, a great tension takes me over, a suffocating terror that grows, fed by the call of the Gate and the moon, until I cry out for it to end. Syd had been hoping grade twelve would go smoothly. But its not even the first day of class and shes dreaming about some Sidhe gate and an approaching threat. Before she can enlist her mothers help, her grandmother Ethpeal disappears, presumably gone after the Dumonts. Miriam pursues her mother, leaving Syd in charge of the coven. All fine and good, except no one trusts or believes in her. Add to that her new friend, Liam, seems somehow tied to the dreams shes having, threats from Celeste and the fact Meira is suddenly acting like a little brat and Syd has her hands full. Maybe too full. Someone is knocking at the Gate and she has no way of answering.
