

## God in Real Life: Personal Encounters with the Divine

[Note: This book has been republished as **DIVINE ENCOUNTERS: Experiences with God in Real Life.**]What if it was truly understood that individuals can have real encounters with the Divine, even in this modern world? What might happen to our collective worldview if we suddenly realized that, in truth, there is a caring God very much concerned about each and every one of us? Presented here are personal accounts from people of all ages, races, and religions who have one thing in common: an experience with the Divine. Those who experienced loss were comforted. Those who touched death no longer feared it. Those who were ill or broken were somehow healed. The stories in this book suggest that the time may have come for our 21st century world to acknowledge that there is much more to us than a simple physical body. Perhaps the time has come to acknowledge that we are never really alone.
