

Blessed Be (The Sisters) (Volume 1)

Alana Summers was quite content with her life. A peaceful farm tucked in a wooded area by the lake with her pets for company. A shop in the small tourist town where she sells a potpourri of items that reflect everything about her. Shes at peace. Shes Wiccan. Logan Farmer is the local sheriff. Small town boy who went to the big city and joined the police force. Then he came home where he belonged. He is deeply rooted in his Native American heritage. Both had grown up knowing that there was more to the world that could be explained or seen. But neither of them knew that their peaceful lives could be disrupted in an instant by a legend long buried. A tale that had been told to them by Logans Shaman grandfather when they were young along with a warning that the ancient legend could replay during their lifetime. But was it really an ancient paranormal evil come to roost or were the recent events merely the doings of a warped human mind? Or had the humans events shaped the return of the evil?
