

Handbook for Preclears

Handbook for Preclears is the legendary self-processing manual that marks the transition from the subject of Dianetics to Scientology. Here are the breakthroughs that revealed the phenomenon of the LIFE CONTINUUM—a mechanism by which every individual takes on the disabilities of the deceased or departed, until they are no longer living their own life. Here, then, are the answers to getting rid of all those parts of you that aren't really YOU. Here are the Fifteen Acts of self-processing oriented to the rehabilitation of self-determinism. Moreover, this book contains several essays giving the most expansive description of the Ideal State of Man. Discover why behavior patterns become so solidly fixed; why habits seemingly can't be broken; how decisions long ago have more power over a person than his decisions today; and why a person keeps past negative experiences in the present. It's all clearly laid out on the Chart of Attitudes—a milestone breakthrough that complements the Hubbard Chart of Human Evaluation—plotting the ideal state of being and one's attitudes and reactions to life. In self-processing, Handbook for Preclears is used in conjunction with Self Analysis.
