

Her Knight in Black Leather

Cat Edwards has spent her life playing the wallflower in an effort to escape the repressive weight of her mothers tarnished name. Dragged to a bar by her best friend in an effort to forget a broken heart, the shy bookworm is determined to be someone else for the night, but quickly gets in over her head. She discovers chivalry isnt dead after all when a mysterious stranger comes to her rescue. Hes wearing black leather and a mischievous smile that promises to be exactly what she needs. When his terminally ill father suffers a setback, Michael Brant returns to the town he swore ten years ago hed never return to. Hes come home this time determined to make peace with the past that haunts him, but being home brings up memories he doesnt want to remember anymore. His first night in town, hes captured by a damsel in distress. Cats beauty is made all the more alluring when he realizes she has no idea who he is. He cant resist spending a single night in her arms. With her, hes only a man, disconnected from his familys name and the past that haunts him here. As the town erupts with the news of his return, Michaels dark past comes back to haunt him, putting Cat danger. Someone is threatening her life and the life of her family. Desperate to keep history from repeating itself, Michael offers her his familys name in order to keep her safe. When the lie spirals beyond their control, can they stop their hearts from becoming entangled as well? Sensuality Level: Sensual
